EDUCATION & AWARDS

Indian Institute of Technology (IIT) Bombay

2021 – 2025

B.Tech. in Mechanical Engineering with Honours in Energy · CGPA 8.67 / 10

- **Runner-Up, AD Kusre Entrepreneurship Student of the Year** (8K+ students) · KVPY Fellow · GMAT Focus Edition 755

PROFESSIONAL EXPERIENCE

Bain & Company, Associate Consultant

Aug 2025 – Present

Procurement Transformation · Global Pharma Co. (~INR29k Cr revenue)

Apr 2026 – Aug 2026

- Leading the indirect-procurement workstream, sizing a ~\$6.5M run-rate savings pool across US freight, warehousing and R&D consumables; the first ~660-item RFQ initial bids indicated 7–9% potential savings (~\$0.9M) against an ~\$11.7M base
- Built an automated spend-visibility pipeline processing 1Cr+ SAP line items, applying a four-level procurement taxonomy and creating consolidated visibility over INR4.5kCr of annual indirect spend in India previously fragmented across functions
- Developed 4 advanced analytics-led sourcing optimizers (best-price vendor, volume consolidation, contract optimization, spec rationalization), each sized against internal spend patterns and external benchmarks to convert diagnosis into a savings plan
- Quantified savings of 100 Cr+ in the Indirect Spends on the India office across major spends buckets of IT, R&D and MRO
- Built GenAI negotiation-support workflows that turn vendor history, contract terms and market data into category-specific negotiation scripts, counterparty Q&A and RFP analysis, standardizing buyer readiness across categories

GTM Transformation · Consumer Durables Co. (~INR8k Cr revenue)

Aug 2025 – Apr 2026

- Drove ~5pp revenue outperformance vs. regional average in a ~INR300 Cr pilot branch by rebuilding the frontline sales operating model — route-beat adherence <20%→67%, retailing days ~12→~20, top-outlet coverage 1.1x→2.4x/mo.
- Built an automated, SOP-driven route-and-beat planning optimizer covering 150 territory sales managers, plus daily and weekly governance dashboards — the engine that scaled the pilot pan-India across all branches
- Moved the branch to secondary-led selling — secondary-to-primary sales adherence 58%→70% within two quarters — by institutionalizing weekly distributor-data (DMS) sync and a standardized review cadence
- Co-authored the Sales Bluebook (the operating manual for sales-team and channel-partner ways of working) and built a dual-metric (input + output) distributor scorecard driving quarterly plans across 20+ partners
- Deployed a 12-rep field-force plan across 11 distributors and drove Retailer-App adoption and KYC across 600+ outlets to expand direct reach, lift secondary pull-through, and sharpen retail scheme visibility

Associate Consultant Intern · Portfolio Strategy · Energy-Transition Platform (~\$1B)

May 2024 – Jul 2024

- Ran full-potential portfolio strategy across 6 business units of a ~\$1B energy-transition platform (market sizing, growth-potential analysis, capability assessment, competitor benchmarking) to prioritize capital allocation across the portfolio
- Evaluated the repositioning of an EV leasing to a tech-enabled NBFC asset-management model, sizing 3-year capital needs of INR720 Cr (leasing) and INR1,530 Cr (manufacturing) to fund the growth plan

ENTREPRENEURSHIP

Soilo Agricultural LLP, Co-Founder

Feb 2023 – Jul 2024

- Won a \$10K equity-free pre-seed grant as 1 of 5 ventures selected by SINE (IIT Bombay) to build climate-tech converting regenerative farming into verifiable carbon income for smallholder farmers across India
- Built the 50+ parameter geochemical model quantifying per-farm CO₂ sequestration — the technical asset underpinning credit issuance and supplied farmers with tailored agri-kits (tools and materials) so procurement was never a barrier for onboarding

ProSpace, Co-Founder

Oct 2022 – Jun 2024

- Scaled a campus tech-consulting venture to INR22L revenue across 25+ delivered projects for government departments, MNCs, startups and IIT Bombay institutional teams, owning P&L and GTM end-to-end
- Won Dean (Student Affairs / R&D) sponsorship for a campus launch; hired, trained and managed a 50+ student delivery team

LEADERSHIP & ACTIVITIES

- **Internship Coordinator, Placement Cell, IIT Bombay**: Certificate of Excellence (4/35); grew internship offers 15% YoY across 400+ firms and 3.5K+ students and reformed the verification policy, cutting failure rate 10%.
- **Student Mentor, IIT Bombay**: 1 of 14 third-year mentors chosen from 435+ applicants; mentored 41 first-years (the most of any mentor) and led a 20+ mentor team building course and internship guides for 1,000+ students.

RESEARCH & ACADEMIC PROJECTS

- **Dynamic Energy Systems Model**: built a national power-sector simulation solving coupled ODEs across 10 generation technologies to stress-test reinvestment-driven capacity expansion and long-run energy self-reliance.
- **Industrial-Scale Green Hydrogen Electrolyser**: designed a 1,000 kW alkaline water electrolyser and modeled the full balance-of-plant to pin down efficiency, start-up dynamics, and optimal operating conditions for scale-up.
